## HOW TO USE

Hip Hop Philosophy has been formatted in three of today's most popular file types: Rex 2, Wav, and Apple Loops. With your choice of these three, you have access to every major sampling/looping device on the market! Every file has been carefully edited to loop perfectly without any complications. Take advantage of the additional info and tagging using Apple Loops with Garage Band, Soundtrack, or even Logic 7. Edit and rearrange your grooves with the Rex2 file flexibility. Of course, the industry standard Wav files can be loaded into multiple sampling and looping devices.
